Introduction

This brochure contains brief descriptions of tours available. Please book your excursions as soon as possible since certain shore excursions can accommodate only a limited number of participants. We recommend that you purchase them in advance of your cruise in order to avoid disappointment.

Shore Excursion and Port Talks

Make it a point to attend the Tour Talk given by the Shore Excursion Manager before each port visit and the Shopping Forum given by the Port & Shopping Lecturer (where you'll receive maps of the port areas).

Activity Level

The Shore Excursions presented in this brochure require the guest to use a motor coach or other form of transportation which will require the guest to step up 2 to 3 steps, approximately 10 inches high each. Most (but not all) motor coaches used can accommodate collapsible wheelchairs. However, it should be noted that escorts, drivers, guides, and shipboard staff are not obliged to lift guests into the vehicles. Lift-vans and/or coaches are not available in all ports of call. Tendering may preclude guests in wheelchairs from going ashore at certain ports of call. For further information, please check with the Shore Excursion desk on board immediately upon arrival.

To assist our guests in choosing their excursions, all tours have been graded according to the level of activity they entail. Please refer to the tour symbol(s) that appear(s) in each tour description. The symbols represent the following:

Mild

To fully participate may require leisurely walking over primarily even surfaces. There may be a limited number of steps, a minimal amount of cobblestones or uneven surfaces, and some standing for extended periods of time.

Moderate

To fully participate may require extended periods of walking over even and uneven surfaces, steep terrain and/or water activity in a slight current. There may be steps, inclines, cobblestone surfaces, and extended periods of standing. Participants with physical limitations should take this into account.

Strenuous

To fully participate may require extended periods of physical exertion, extensive walking, climbing, or biking. There may be numerous steps, inclines, cobblestones, and other rough terrain throughout the excursion. These excursions are the most active and have been designed for participants in excellent health and very good physical condition.

Cozumel, Mexico

CZA - Tulum Mayan Ruins Express

PRICE: ADULT: 75.00 / CHILD: 65.00 USD

DURATION: 6 Hours 30 Minutes Approx.

Majestically perched above the turquoise Caribbean, lie the ruins of the ancient Mayan City of Tulum. After an early breakfast, you'll board a ferry for a trip from Cozumel to Playa del Carmen. During the one-hour bus trip to Tulum, a guide will brief you on the sights you are about to see. At Tulum, an English-speaking guide will take you to visit the ruins, considered to be the most important on the Yucatan Peninsula. The centrally located public, administrative, civic and religious buildings are ringed by a protective wall on three sides and the sea on the other. The site was occupied as far back as 600 A.D. However, it was most densely populated around 1200 A.D. You will be struck by the pyramid-shaped El Castillo, sitting atop a forty-foot cliff, which dominates the city. The nearby Temple of the Descending God, provides an equally excellent insight into the architecture of the Mayan people, who reached considerable heights in the Arts and Sciences, only to decline and vanish for no apparent reason. You will visit these and many others of the more than sixty structures of the ancient fortress. You will then be taken back to the pier for a return ferry trip to Cozumel. Please note that this tour will end downtown, not at the ship. It is the guests own responsibility to return to the vessel.

Note: By Mexican law, there is a fee of approximately \$8.00 USD to \$10.00 USD at Tulum for guests who bring video cameras. This fee is not included in the price of the tour. It is recommended that participants bring a bottle of water with them. Please wear light clothing and sensible shoes as the visit to the ruins involves a certain amount of walking over rough terrain.
